# Zebra CardStudio Card Design Software

## EASILY DESIGN PROFESSIONAL CARDS

**World-class cards for your business**
Zebra's CardStudio card-design and card-issuance software brings the sophistication of professional card design and printing to your office. Easy to learn and use, CardStudio offers you design, encoding and printing applications to produce beautiful, high-quality cards.

**Feature-rich software with enhanced support**
The latest version of CardStudio offers several services and features, including:

- Updated Unicode support for improved multi-language options, including upgraded support for Arabic and Chinese characters
- Enhanced internal online help resources
- More robust signature pad, including new drivers to support latest signature pad models
- Improved SmartCard ultra-high frequency (UHF) and HF MIFARE

CardStudio software suite is the perfect complement for Zebra's industry leading Card Printers. CardStudio is compatible with all current and legacy Zebra printers and is available with an edition for every need: Classic, Standard, Enterprise and Professional.

### Available Editions

**Classic**
Provides users with an essential program for creating and printing professional, simple card designs in low volumes.

**Standard**
Offers Classic edition features plus Excel and csv data-file integration and advanced print functionality for small businesses.

**Enterprise**
Designed for enterprises with more advanced applications that require internal database integration, multi-layout card design options, user-based logon security and more.

**Professional**
Incorporates world-class card design and issuance features, plus access to external database integration, contact/contactless smart card capabilities and UHF encoding support.

*Upgrades from Classic, Standard and Enterprise editions are available with the simplicity of a software license key.*

**ZEBRA CARDSTUDIO — THE EASY WAY TO CREATE PROFESSIONAL CARDS.**
